<b>Institutions</b>	Nepean Public Hospital Nepean Private Hospital Norwest Private Hospital Sydney Adventist Hospital Northern Beaches Hospital Mater Hospital Dubbo Base Hospital	
<b>Educational goals and characteristics</b>	<p><b>Position Objective</b></p> <p>The purpose of the Greater Sydney Foot and Ankle Research and Education Organisation (GSFAAREO) Fellowship is to provide specialist training in foot and ankle surgery to orthopaedic surgeons wishing to sub-specialise. Depending on the level of experience on entry to the fellowship program, it is anticipated that the GSFAAREO Fellow (on completion of 12 months training) would be proficient in the acute surgical management of foot and ankle conditions including diabetic foot pathology, trauma (including sports trauma) and elective foot and ankle surgery in adults and children.</p> <p>The fellowship offers significant exposure to:</p> <ul style="list-style-type: none"> <li>• Surgical and non-surgical management of Charcot arthropathy (internal and external fixation)</li> <li>• External Ring Fixation</li> <li>• Management of diabetic foot infections</li> <li>• Management of foot and ankle deformity</li> <li>• Multidisciplinary care of complex foot and ankle conditions</li> <li>• Management of foot and ankle arthritis</li> <li>• Foot and ankle trauma</li> </ul>	

	<ul style="list-style-type: none"> <li>• Management of forefoot pathology</li> <li>• Lower limb cerebral palsy management in adults and children</li> </ul> <p>The fellow will be able to pursue their areas of interest within these boundaries. This would include outpatient’s clinic, surgery and research.</p> <p><b>Responsibilities and Accountabilities</b>  The GSFAAREO Fellowship is a twelve month fellowship and includes employment as a Fellow under the supervision of Dr Brian Martin, Dr. David Carmody and Dr. Jason Chow.  The fellow will undertake clinical and surgical training, and academic research while working with the GSFAAREO fellowship supervisors and various orthopaedic departments. Each fellow will be expected to make significant research contributions in their area of interest or contribute to a supervisor’s research project. They will be allocated time dedicated to research.</p>
<p><b>Requirements/ criteria</b></p>	<p><b>Fellowship Application Criteria</b>  The ideal applicant for this fellowship will have already finished general orthopaedic training, and will have had exposure to foot and ankle surgery, either during general training or in previous foot and ankle fellowships. To benefit from the fellowship, the trainee should already be fluent in the basics, and wish to further explore a particular avenue or avenues in foot and ankle surgery.  The applicant must:</p> <ul style="list-style-type: none"> <li>• Be eligible for registration with the Medical Board of Australia (AHPRA)</li> <li>• Have the appropriate level of post graduate orthopaedic training</li> <li>• Have demonstrated a high standard of clinical practice</li> <li>• Have demonstrated professional integrity</li> <li>• Have demonstrated the ability to work in a multidisciplinary team environment</li> <li>• Have demonstrated commitment to quality improvement</li> <li>• Have demonstrated ability to be adaptable to change</li> <li>• Have the clinical experience appropriate to the year of training</li> <li>• Have experience in scientific and/or clinical research</li> <li>• Have knowledge of appropriate clinical standards</li> <li>• Have knowledge of policies, protocols and procedures to ensure acceptable practices</li> <li>• Have knowledge of foot and ankle surgical techniques</li> <li>• Have evidence of research experience, including evidence of relevant published research</li> </ul> <p><b>Key Selection Criteria</b>  Mandatory: Qualifications, experience and personal skills as listed above  Optional: Evidence of extensive research experience, including evidence of relevant published research.</p>
<p><b>How to Apply</b></p>	<p>Please forward detailed CV with 3 referees to <a href="mailto:admin@drbrianmartin.com.au">admin@drbrianmartin.com.au</a></p>
